2 Summary of significant accounting policies

2.1 Accounting basis for the presentation of consolidated financial statements

The Bank prepares its consolidated financial statements in accordance with the accounting standards established by the Superintendence of Banks of the Dominican Republic, regulations, resolutions, circulars and other specific provisions issued by the Superintendence of Banks and the Monetary Board of the Dominican Republic, within the framework of the Monetary and Financial Law. These practices differ in form and content from the International Financial Reporting Standards applicable for banks and financial institutions. Therefore, the accompanying consolidated financial statements - statutory basis do not pretend to present the financial position, financial performance and cash flows in accordance with International Financial Reporting Standards.

Subsidiaries include: insurance companies, pension fund managers, administrator of health plans and a security exchange, which have been prepared in accordance with the accounting practices established by the Superintendence of Insurance, the Superintendence of Pensions, the Superintendence of Health and Labor Risks and the Superintendence of Securities of the Dominican Republic, respectively. Furthermore unregulated subsidiaries whose accounting practices are in accordance with the International Financial Reporting Standards. The figures for these subsidiaries that are incorporated in the consolidated financial statements have been prepared following those accounting bases.

The consolidated financial statements - statutory basis, and the explanatory notes have been prepared in thousands of Dominican Pesos (RD\$).

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

Differences with the International Financial Reporting Standards

The accounting practices established by the Superintendence of Banks of the Dominican Republic differ from IFRS in certain aspects. A summary of the most relevant differences is presented below:

Allowance for loan portfolio are determined through an assessment of inherent risks made by the Bank and the reserve levels that result from the classification assigned to each loan (for commercial loans classified as major debtors) or days past due (for consumer, mortgage loans and minor commercial loans) and some specific approvals issued by the Superintendence of Banks. This evaluation (for major commercial debtors) includes the ability to pay based on a review of credit records, payment history. The collaterals are only considered for the determination of provision. In accordance with International Financial Reporting Standards loan portfolios are assessed by separating individual and collective loans. Individual loan analysis is evaluated on a loan-by-loan basis.

Loans that are collectively evaluated to determine if impairment exists, considering the estimates of the contractual cash flows in such groups of assets, the historical loss experience analysis and opinion from management as to whether the current economical and loans conditions may change the actual level of the inherent historical losses. A provision is recognized, if objective evidence exist that there has been an impairment loss, which would result in the difference between its carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate.

- ii) Banking regulations require financial entities to establish allowances for assets received in loan settlements according to the following criteria: movable goods are reserved over a two-year (2) period, on a straight line basis, starting six (6) months after receipt of the asset; real estate is reserved over a three-year (3) period, on a straight-line basis, counted as of the first anniversary of its recording in the Bank's books. The International Financial RS require that these assets be reserved only in the event that impairment occurs.
- iii) Interest receivable past-due for less than 90 days is reserved according to the classification granted to the corresponding principal. Past due interest receivable with more than 90 days is fully reserved, except in the case of credit cards, where interest receivable is reserved after 60 days past due. Subsequent accrued interest is not recognized in the consolidated financial statements statutory basis. According to IFRS, allowances on interest receivable are determined based on existent risks specific to the loan portfolio, in the event of impairment of interest receivable, the loans are adjusted and subsequent accrual of interest is based on the adjusted balance using the effective interest rate.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

- iv) Financial entities translate all transactions in foreign currencies at the official exchange rate as established by the Central Bank of the Dominican Republic at the date of the balance sheet. IFRS requires that all balances in foreign currencies be translated at the exchange rate to which the Bank had access at the balance sheet date.
- v) The Superintendence of Banks of the Dominican Republic requires that reserves held on loans at the moment of executing their collateral, be transferred to the assets received in loan settlements. IFRS only requires reserves when the fair value of the asset is lower than its book value or when impairment exists.
- vi) There are differences between the presentation and certain disclosures of the financial statements according to and what is required by the Superintendence of Banks of the Dominican Republic.
- vii) According to banking practices, income derived from credit card renewals, letters of credit and outstanding acceptances are recorded immediately as income. IFRS require recognition of this income to be deferred over the duration of the respective cards, letters of credit and outstanding acceptances.
- viii) The Superintendence of Banks of the Dominican Republic requires that computer software and leasehold improvements, be previously authorized by the Superintendence in order to be recognized as assets, generators and equipment and intangible assets, respectively, and are classified as other assets until such approval is obtained. IFRS requires that these items be recognized as intangible assets as long as they generate future economic benefits.
- ix) The Superintendence of Banks of the Dominican Republic has established that short-term highly liquid investments which are easily convertible to cash be classified as investments. IFRS requires that this type of investments be classified as cash equivalents, for the purposes of the cash flow statement.
- x) The Superintendence of Banks of the Dominican Republic requires that financial institutions classify investments in four (4) categories, which are: trading, available-for-sale investments, held-to-maturity investments, and other investments in debt securities. Additionally, it allows classification in one of the three (3) former categories only those investments that are listed in an active market. IFRS does not require this kind of distinction, and the classification will depend on management intention and does not provide other investments classification.
- xi) The Superintendence of Banks of the Dominican Republic allowed multiple service banks the revaluation of its properties as of December 31, 2004 and has not required updating of these values after this date. IFRS state that these updates must be performed whenever significant value changes occur for such assets.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

- xii) The Superintendence of Banks of the Dominican Republic requires that cash flow corresponding to loans portfolio and customer deposits be classified as investment and financial activities, respectively. IFRS require cash flows from these transactions to be classified as operating activities.
- xiii) The Superintendence of Banks of the Dominican Republic requires banks to recognize an allowance for contingent operations which includes granted guarantees, non-negotiated letters of credit issued, and lines of credit of automated use based on a classification of risk categories following the Ruling for Assets Evaluation. The International Financial Reporting Standards require allowances be recorded when there is a present obligation as a result of a past event, and it is probable that the entity will have to pay it and a reliable estimate of the obligation can be made.
- xiv) The Superintendence of Banks allowed the Bank the recognition as interest income upfront commission collected on discount of invoices at the time of operation. IFRS require that such commission be deferred and recognized as income using the effective interest method.
- xv) The Superintendence of Banks allowed the recognition of liabilities related to the Pension Fund and the pensions paid directly by the Bank over a nine (9) year-period beginning in 2011. IFRS establishes that pension plan obligations must be recognized initially in full through profit and loss and periodically updated in subsequent periods and the effects to be recognized either in profit or loss or other comprehensive income.
- xvi) Banking regulations require that investment in stocks be valued at the lower of fair value or cost. If there is not a security market, they are valued at the lesser impairment cost, taking into account the quality and creditworthiness of the issuer, following the Ruling for Assets Evaluation and Instructive for the Evaluation Process of Assets in Permanent Regime. In accordance with IFRS it must be determined if there is control or significant influence. If control exists, the consolidated financial statements must be prepared. If it is determined that there is significant influence, investments must be recognized under the equity method and those that do not comply with the two (2) above features are carried at market value with either profit or loss or in equity, depending on their classification.
- xvii) In accordance to the current banking regulations, the Bank must quantitatively disclose the risks derived from its financial instruments, such as liquidity and interest rate risks and the credit risk of the loans, among others. IFRS require the following disclosures that allows the users of the financial statements to evaluate: a) the importance of the financial instruments in relation to the financial position and results of the entity and b) the nature and the scope of the risks resulting from the financial instruments to which the entity is exposed during the period, the report date and how the entity manages these risks.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

- xviii) The Superintendence of Banks of the Dominican Republic does not allow the release of provision of assets awarded without prior authorization. In case of the sale of assets awarded that are provisioned, if the sale occurs at a higher value than its value in books, it cannot be recognized as a gain as required by the International Financial Reporting Standards, but instead the provision released must be transferred to other regulatory provisions or an authorization to Superintendence of Banks must be presented in order to recognize it as income.
 - xix) In 2012, The Superintendence of Banks of the Dominican Republic authorized the Bank to classify as accounts receivable some discount on invoice operations. According to the International Financial Reporting Standards, these operations must be classified as loan portfolio. As of March 31, 2014 and December 31, 2013 there were classified as loan portfolio.
 - xx) The Superintendence of Banks of the Dominican Republic authorizes financial intermediation institutions to write off a loan with or without guaranties when it becomes a non-performing portfolio, excluding related-party loan, that should be written off when all legal collection processes have been exhausted and the involved officers and / or directors have been removed from their duties. The International Financial Reporting Standards requires these write offs immediately when loans are determined to be unrecoverable.
 - xxi) The International Financial Reporting Standards require that, if the Bank presents other comprehensive income, an income statement and comprehensive income financial statement must be presented or a separate statement of other comprehensive showing the nature and amount of line items for other comprehensive income during the period. The Superintendence of Banks of the Dominican Republic does not include this requirement in their preparation of financial statements statutory basis.
- xxii) The Superintendence of Banks of the Dominican Republic, authorized the inclusion in the consolidated financial statements, the financial statements of subsidiaries that were prepared following different accounting practices to those in the Accounting Manual for Financial Institutions without being homogenized with the accounting practices followed by the Bank. According to the International Financial Reporting Standards, entities included in the consolidation should follow the same accounting policies.

<u>Differences between accounting practices for Insurance Companies in the Dominican Republic and International Financial Reporting Standards:</u>

i) As established by the Superintendence of Insurance, short-term insurance contracts are recognized as revenue when billed; as a result, unearned premium reserves are computed based on specific percentages according to the line of business and are not based on a pro-rata distribution over the term of the policy. These minimum percentages are established in Article 141 of the Insurance and Surety Bonds Law No. 146-02, as follows:

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

- 15% Transportation and freight
- 5% Collective life insurance, accidents and health, provided premiums are collected on a monthly basis
- 40% Surety bonds - 40% other insurances

In accordance with International Financial Reporting Standards, income from insurance contracts, both general and short-term life insurance, is recognized proportionately over the term of the policy. The amount of the premium paid when the policy is issued, as well as the portion relating to the unexpired risk, should be recognized as deferred income.

For long-term insurance contracts without a guaranteed minimum term (e.g. long-term death or survivorship), premiums are recognized as a deferred income, which is increased by the interest or changes in the unit price and decreased for management fees, death benefits and any other deductions.

- ii) The following items are considered as investments up to the limits permitted by Law No. 146-02 relating to Private Insurance and its amendments:
 - Mortgage-secured loans.
 - Certificates of deposit in local banks.
 - Reserves held by local insurers and reinsurers.
 - Real estate located in the country
 - Shares and bonds of local corporations.
 - Liquid financial instruments.
 - Negotiable securities placed through the Dominican stock exchange.
 - Investments in foreign currency.

In accordance with Insurance and Surety Bonds Law No. 146-02 governing private insurance operations, an amount equivalent to the sum of the mathematical risk reserves - general and personal insurance and surety bonds, catastrophic, specific and statutory - must be invested in any of the aforementioned categories and any amount in excess of the maximum percentage should be classified as other investments.

In accordance with IFRS investments are classified into four (4) categories: financial assets at fair value with changes through profit and loss, held-to-maturity financial assets, loans and receivables, and available-for-sale financial assets. According to IFRS these investments must be recognized initially at fair value and subsequent to their initial recognition, are measured at amortized cost, fair value with changes in profit or loss or at fair value with changes in equity depending on its initial classification. Additionally, IFRS does not provide for other investments classification.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

- iii) The Superintendence of Insurance of the Dominican Republic establishes that short-term, highly liquid investments that can be readily converted to cash be presented as investments. International Financial Reporting Standards requires that such investments be presented as cash equivalents.
- iv) Income, expenses and important reclassifications that affect financial statements of previous periods are recognized in the year in which they are identified. International Financial Reporting Standards requires that these transactions be recognized retroactively correcting the previously reported financial statements, including presentation of the statement of financial position for the most recent three (3) years.
- v) Premiums receivable that are considered uncollectible by the Company are reversed against revenue. In accordance with IFRS, premiums receivable should be assessed regularly and a provision should be created for amounts deemed uncollectible. This provision is recognized affecting operating expenses of the year.
- vi) The effects of reinstatement and liquidation of reinsurance contracts are adjusted with the reinsurer on the final liquidation date of the contract. IFRS requires that changes in insurance contracts be estimated and recognized in profit or loss based on such estimations.
- vii) The recognition of specific reserves for claims incurred but not reported at the statement of financial position date is not required. IFRS requires creating a provision for those probable and quantifiable losses and that it is recorded through a charge to operations of the year in which the incident occurred.
- viii) International Financial Reporting Standards requires that if an entity holds derivative financial instruments, to separate them from the host contract and account them separately if the characteristics and risks of the host contract and the derivative are not closely related. Accounting practices established or allowed by the Superintendence of Insurance of the Dominican Republic does not provide the basis for registration and management of derivative financial instruments.
- xi) There are certain differences in presentation and disclosures of the financial statements according to the accounting practices established by the Superintendence of Insurance of the Dominican Republic and financial statements prepared in accordance with International Financial Reporting Standards.
- x) International Financial Reporting Standards requires that a Liability adequacy test be performed. This test is basically a calculation based on a statistical methodology that determines if provisions recognize by the Company are adequate to honor possible commitments arising from current insurance contracts. Accounting practices of the Superintendence of Insurance does not require this kind of provision.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

- xi) The Insurance Companies account for salvage values and recoveries in off-balance sheet accounts. International Financial Reporting Standards establish that at the balance sheet date such assets shall be measured at fair value less any cost of sale and recognized as other assets against a deduction of the cost of the claims that gave rise to the salvage values in the period in which the Company obtained the rights over the salvage values and recoveries.
- xii) According to accounting practices of the Superintendence of Insurance, savings account a component of life insurance contracts are not accounted for separately in the balance sheet. International Financial Reporting Standards requires separating and recognizing as a liability, a savings account when it is a component of an insurance contract.
- xiii) Accounting practices of the Superintendence of Insurance does not require separating revenue for the rendering of a service that is a component of an insurance contract. International Financial Reporting Standards requires separating from an insurance contract a component of rendering of service for which the Company does not keep any insurance risk. Such component should be recognized as a liability, and any unearned commission collected on the intermediation of the service shall be deferred, as an income during the term of the policy which generated said commission.
- xiv) Accounting practices of the Superintendence of Insurance requires that additional costs incurred in the process of acquisition and issuance of insurance contracts be recognized as expenses when they occur. According to IFRS these costs must be deferred and recognized as expenses using the straight-line method over the life of the related insurance contract.
- xv) Accounting practices of the Superintendence of Insurance requires the classification of property, plant and equipment indistinctively of the use of the assets. International Financial Reporting Standards requires that property, plant and equipment which are intended to earn rentals, or for capital appreciation purposes, shall be classified as investment properties, and therefore their recognition and presentation as investment property differ from the assets that are being used in the Company's operations.

The Bank has not quantified the effects of differences between the accounting basis and IFRS on the consolidated financial statements - statutory basis.

2.2 Use of estimates

The preparation of the consolidated financial statements – statutory basis requires management to make estimates and assumptions that affect the amounts of assets and liabilities reported and the disclosure of contingent assets and liabilities as of the date of the consolidated financial statements, and the amounts reported as current revenues and expenses. Estimates are used mainly in the determination of provisions for assets subject to risk, depreciation and amortization of long-term assets, impairment of long-term assets and contingencies. Actual results may differ from such estimates.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

2.3 Consolidation

The consolidated financial statements – statutory basis include the accounts of Banco de Reservas de la República Dominicana, Banco de Servicios Múltiples, and subsidiaries owned either directly or indirectly in more than 50%, which are: Peaje Dominicano, S.A.S. and Tenedora Banreservas, S.A. and subsidiaries, which include Seguros Banreservas, S.A. Reservas Asistencia, S.A.S., Reservas Inmobiliaria, S.A. and subsidiaries, Administradora de Fondos de Pensiones Reservas, S.A. and Inversiones & Reservas, S.A. y Fiduciaria Reservas S.A. Additionally, Administradora de Riesgo de Salud Reservas, Inc., a non-profit entity whose net assets are included as other liabilities.

All these entities are located and incorporated under the laws of the Dominican Republic. Balances and transactions among the consolidated entities are eliminated in consolidation. There are differences among some of the accounting policies of the subsidiaries, which prepare their financial statements accounting with the accounting practices issued by the Superintendence of Insurance, of Pensions, Health and Labor risk and Superintendence of Securities of the Dominican Republic.

The Superintendence of Banks of the Dominican Republic approved the incorporation of the financial statements of these subsidiaries in the consolidated financial statements without homogenizing its accounting practices to the ones followed by the Bank.

The entities included in the consolidated financial statements - statutory basis of Banco de Reservas de la República Dominicana, Banco de Servicios Múltiples, Parent Company, and the following subsidiaries:

<u>Subsidiaries</u>	Country of Operation	% of Ownership
Tenedora Banreservas, S. A. and Subsidiaries	Dominican Republic	97.74
Peaje Dominicano. S.A.S. Administradora de Riesgo de	Dominicana Republic	100.00
Salud Reservas, Inc.	Dominicana Republic	

Intra-group balances and income and expenses arising from intra-group transactions were eliminated in preparing the consolidated financial statements – statutory basis.

The Superintendence of Banks of the Dominican Republic authorized the Bank to not eliminate the allowance for investment in subsidiaries in the consolidation. This allowance is used in the consolidation to comply with other provisions at consolidated level, when required.

Banco de Reservas de la República Dominicana, Banco de Servicios Múltiples - Regulated by the Superintendence of Banks of the Dominican Republic.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

The Bank is the most important entity and provides financial intermediation services such as loans, investments; certificate of deposits and financing to the Dominican Government, its autonomous entities and state enterprises (public sector) and to privately owned enterprises and the general public (private sector).

Administradora de Riesgo de Salud Reservas, Inc. - Regulated by the Superintendence of Health and Labor Risks of the Dominican Republic.

It is a Non-For Profit organization dedicated to the management of health insurance plans, established by the National Council of Social Security, in accordance to Law No. 87-01 and its complementary regulations.

Peaje Dominicano, S.A.S.

This Company was incorporated under the laws of the Dominican Republic; its main activity is management of a parking building owned by the Bank.

Tenedora Banreservas, S. A. and Subsidiaries

It is the Parent Company of the following subsidiaries:

(a) Seguros Banreservas, S. A. and Subsidiaries - Regulated by the Superintendence of Insurance of the Dominican Republic.

This company is authorized to operate in the field of general insurance and personal insurance in the country, according to Insurance Law No. 146-02.

(b) Administradora de Fondos de Pensiones Reservas, S. A. - Regulated by the Superintendence of Pensions of the Dominican Republic.

It is dedicated to the administration of pension funds of third parties, or plans and pension funds of companies or associations that are entrusted for administration on the basis of specific contracts, according to Law 87-01 that created the Dominican system of Social Security and the complementary regulations to this law.

Currently, AFP Reservas manages Pension Fund T-1 AFP Reservas (Contribution), Pension Fund T-4 AFP Reservas (Distribution) and Pension Funds T-5 AFP Reservas (Social Solidarity), according to Law 87-01. The Administradora is regulated by the Superintendence of Pensions of the Dominican Republic.

(c) Reservas Inmobiliarias, S. A. and Subsidiary.

It performs all type of real estate transactions, such as buying, selling, leasing, management and development of real estate properties.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

Reservas Inmobiliarias, S. A., a subsidiary company corresponds to Operadora Zonas Francas Villa Esperanza, S. A., which is engaged in the leasing under the free zone regime certified by the National Council of Export Free Zones.

(d) Inversiones & Reservas, S. A. - Regulated by the Superintendence of Securities of the Dominican Republic.

Inversiones & Reservas, S. A., was incorporated under the laws of the Dominican Republic. Its main purposes consist of buying and selling securities, exchange of securities, underwriting issuance of securities in part or as a whole, for subsequent trade to the public, promoting and facilitating the issuance of securities in public offerings and to perform all operations authorized by the Superintendence of Securities of the Dominican Republic.

(e) Fiduciaria Reservas, S. A.

Incorporated under the laws of the Dominican Republic, its main purpose is to administer and manage all business, in accordance with Law No. 189-11, relating to Mortgage Market Development and Trust in the Dominican Republic and all operations authorized by the Superintendence of Banks of the Dominican Republic.

2.4 Loan portfolio

Loans are carried out at their outstanding balances less the required allowance for loan losses.

The Bank calculates interest on loans and cardholders based on the outstanding balance of the principal.

The Bank assigns to commercial loans that have been restructured an initial classification no lower than "C" independently of their capability and payment behavior and country risk; this can be changed subsequently to a lower risk category based on satisfactory payment behavior. The Bank is also required to create an allowance for consumer and mortgage loans that have been restructured and classified no lower than "D." Such classification may be subsequently changed based on payment behavior, but cannot be classified lower than "B."

Furthermore, the Bank applies the arrears method to over 90 days past due loans, considering the total amount of principal past due when one installment payment has fallen into arrears.

The Bank suspends the accrual of interest on loans when past due for more than 90 days and 60 days for credit cards.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

2.5 Determination of provisions to cover credit risks on loan losses in the loan portfolio, other assets and contingent operations

2.5.1 Allowance for loan portfolio

Determination of allowance for loan losses of the loan portfolio is based on local Banking Regulations for Asset Valuation, as approved by the Monetary Board in its First Resolution of December 29, 2004, as well as complementary regulations, instructions and observations made by the Superintendence of Banks. (Basis for allowances' determination.)

According to these regulations, the estimate of loan loss reserves depends upon the type of loan, which can be subdivided in: major commercial debtors, minor commercial debtors, consumer loans and mortgage loans. The estimation of loan loss reserves for major commercial debtors is based on a detailed quarterly review of each debtor's solvency, payment history and country risk performed by the Bank for 100% of its major commercial debtors (subject to review by the Superintendence of Banks), using specific percentages based on debtor classification.

Minor commercial debtors' classification is based only on past due date. The Superintendence of Banks of the Dominican Republic, through Instruction Letter 001/11 dated July 25, 2011 and expiration date June 30, 2013, allows financial institutions when performing evaluations regarding major debtors to take into consideration only their payment history. Subsequent to the expiration date of the aforementioned Instruction Letter, major commercial debtors are classified quarterly considering the categorized analysis of each debtor based on solvency, and as established by the Regulations for Asset Valuation and the evaluation of other factors such as: liquidity ratio, profitability, leverage, market analysis, payment performance history, country risk and alignment.

According to the Second Monetary Board Resolution, dated March 21, 2013, in order for a commercial loan be classified as mayor commercial debtor, such amount was increased from RD\$15,000,000 to RD\$25,000,000. Furthermore, the consolidated debt should be considered in the financial system regardless of the entity that granted the loan.

Furthermore, such regulation requires a provision for the effects of exchange fluctuations on foreign currency loans classified as D and E, considering as a risk exposure of 20% of the amount past due on collateralized loans classified as D and E, for more than 90 days past due.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

Through SB Circular: No. 002/11 dated July 25, 2011, the Superintendence of Banks of the Dominican Republic, granted a waiver for the accounting treatment of the provision caused by the positive differences on exchange rate of existing loans classified D and E, accordingly, as set out in Circular SB: No. 004/09 dated March 24th, 2009. Accordingly, a period of two (2) years was established beginning on the date of the aforementioned resolution for the constitution of reserves originated by the positive exchange rate differences on loans D and E. The Superintendence of Banks of the Dominican Republic, through Circular SB: 008/12, dated December 5, 2012, granted an extension of the time limit for implementing the measures set forth in Circular SB: 002/11, pending the review of Regulation for Assets Valuation is completed.

Additionally, Circular No. SB: 002/11 establishes that the amount of the allowances that banks will present at the date of this Instruction Letter will be transferred to the account 129.01.M.08, additional provision for risky assets and can be used to cover requirements of provisions for risk on the different types of assets.

Also, the Superintendence of Banks provided special approvals to classify some credits that might be classified differently if they were evaluated in accordance with the banking Regulation for Assets Valuation.

For minor commercial debtors consumer and mortgage loans, the allowance is determined based on the days in arrears and collaterals are not take into consideration. Loan collateral, as a factor of security in the collection of loans, is considered a secondary element and is not taken into account when determining debtor classification, even though this is considered when determining the necessary reserves (only in the case of commercial debtors).

In accordance with the Banking Regulations for Asset Valuation, collaterals that secures credit operations are classified based on its use and ease of conversion to cash. Based on the established acceptable amounts, each classification of collateral is considered as a secondary element in the calculation of the loan loss reserve coverage.

Acceptable collateral is quantified using specific discount percentages as established in the Regulations. Collaterals are classified as follows:

Multi-use collateral ("garantías polivalentes")

These collaterals include real estate that is not specific to any activity but has multiple uses, is easily transferable, is easy to convert to cash, easily appraised and easy to monetize without excessive costs and with a stable value. Such collateral is considered at 50% to 100% of its value for the purpose of estimating the risk coverage by such assets, depending on the type of collateral.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

Specific use collateral ("garantías no polivalentes")

Represents collateral secured by assets difficult to convert to cash or monetize. Generally, these assets are user specific. Such collateral is taken into account at 30% to 50% of its value for the purpose of estimating the risk coverage provided by such assets.

Each classification of collateral is taken into account in calculating the amount of loan coverage based on schedule 8 (Table 8) the percentages established in the Banking Regulations for Asset Valuation (REA).

2.5.2 Allowance for loan portfolio of the public sector.

At March 31 2014 and December 31, 2013, the Bank evaluated the portfolio of major commercial debtors of the public sector, as defined and classified by Law No. 6-06 regarding Public Loans, following the Instructional Guidelines for Investment Credit Evaluation and Contingent Operations of the Public Sector and related circulars. Loans payable to some strategic entities of the Dominican electricity sector, were classified as risk "A" and a requirement for the provision of 1% as stated in the ADM/0089/12 Memorandum issued by the Superintendence of Banks of the Dominican Republic as of February 8, 2012. Provisions for public sector loans classified as "A", have a provision requirement of "0," as set forth by Memorandum 0981 dated December 14, 2012 of the Superintendence of Banks of the Dominican Republic.

2.5.3 Allowance for interest receivable

The allowance for losses on interest receivable is determined using specific percentages according to the classification of the corresponding principal. Provision for interest on consumers, mortgage and minor commercial loans is based upon specific percentages for each loan, depending on past-due payments using parameters established in the Banking Regulations for Asset Valuation (REA).

Interest receivable 90 days past due (except for credit card balance) is fully reserved. Interest receivable on credit cards is fully reserved over 60 days past-due. Such accounts are then maintained on a non-accrual basis, are recorded as a memorandum account ("cuentas de orden") and interest is recognized as income only when collected.

2.5.4 Allowance for other assets

Banking Regulations for Asset Valuation (REA) establishes a maximum term of three (3) years, starting after the expiration of 120-days period following foreclosure, to create an allowance for assets received in settlement of the loan. Reserves should be established as follows if assets remain unsold:

Movable goods: 100% Over two (2) years, recorded on a straight-line basis starting

on the seventh (7) month.

Real estate: 100% Over three (3) years, recorded on a straight-line basis

starting on the thirteenth month.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

Existing reserves for loan losses relating to collateral that has been foreclosed must be transferred to allowances for losses on assets received in settlement of loans. The allowance on the assets cannot be released without prior authorization of the Superintendence of Banks of the Dominican Republic; nevertheless, they can be transferred to other risky assets without prior authorization.

Impairment in the value of assets received in loan settlements is computed as the difference between book and market values determined by independent appraisers, and are charged as expense when determined.

2.5.5 Allowance for contingencies

The allowance for contingent operations, included in "other liabilities," relates to provisions for guarantees granted, endorsements, non-negative letters of credit and credit lines available on unused credit cards, among others. Such provisions are determined together with the rest of the debtor's obligations and are made depending on the risk classification of the debtor and on collateral for the calculation of the provision. The nature, amounts and estimation of contingent liabilities are described in note 28 to the consolidated financial statements - statutory basis.

2.6 Employee benefit cost

2.6.1 Bonuses and other benefits

The Bank recognizes a provision for personal benefits to its employees such as bonuses, Christmas bonus, vacations and other benefits, among others, as incurred and in compliance with local laws and its own compensation plans.

2.6.2 Defined benefits plan

The Bank - Parent Company has a defined benefit pension plan for employees that are not covered by Social Security Law No. 87-01 of May 9, 2001, which established the Social Security System of the Dominican Republic. As established in the Pension Plan approved by the Board of Directors of the Bank, the contribution of the Bank to the Plan is 5.40% of the monthly salaries paid to officers and employees, plus 2.5% of the gross profits of the Bank and extraordinary contributions. In December 31, 2010, the Superintendence of Banks allowed that the liability for the defined benefit pension plan be recognized prospectively over a nine (9) year period beginning in December 2011.

Additionally, the Board of Director approves pensions to be paid directly by the Bank, which are included in the determination of actuarial liability of the Plan.

The Bank's net obligation with respect to defined benefit plans, is calculated by estimating the amount of future benefit that employees will have earned in the current and prior period and during prior periods and discounting that amount and deducting the fair value of the plan's assets.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

The calculation of the defined benefit obligation is performed annually by a qualified actuary using the method of projected unit credit. In order to calculate the present value of economic benefits, minimum funding must requirements should be considered.

2.6.3 Defined contribution plan

The Bank makes contributions to the mandatory pension plan, in accordance with the requirements of the Social Security Law No. 87-01, dated May 9, 2001 which created the Social Security System of the Dominican Republic. This system operates under individual capitalization schemes and requires that individual contributions made by the employer and employee must be managed by the Administradora de Fondos de Pensiones (AFP). The contributions made by the Bank are recognized as expenses when incurred. At retirement age, the employees will receive their contributions and of the employer plus the accrued income on their individual capital account

2.6.4 Severance compensation

The Labor Code of the Dominican Republic sets forth the payment of severance indemnities (preaviso y cesantía) to employees whose contracts have been terminated without just cause. The Bank recognizes as expenses the amounts paid for this concept at the time of the termination of employment contracts

2.7 Outstanding securities and subordinated debt

Outstanding securities comprises liabilities derived from the acquisition of public resources through the issuance of bonds, financial certificates, investment certificates and other securities issued by the Bank which are held by the public.

The Bank's has subordinated debts relating to financing obtained by issuing debt securities denominated "Subordinated Debt Notes" issued in the United States of America. The subordinated debt is recognized initially at fair value, net from transaction costs incurred and discounts granted on the issue, which are amortized on the straight-line method over the term of the debt. Financial expenses resulting from commissions, exchange differences and other financial charges arising from the aforementioned obligations are recognized and taken to profit or loss for the period in which they have incurred.

2.8 Valuation of different types of investments

2.8.1 Investments in securities and provisions

Investments are accounted for at cost less required allowance.

The Bank classifies the investments in four (4) categories: trading, held to maturity, available-for-sale and other investment in debt instruments.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

Trading securities correspond to investments acquired with the purpose of obtaining profits derived from short-term fluctuations in prices, and which are traded on a stock exchange market or other type of organized market. Held-to-maturity corresponds to investments that the Bank has the positive intent and ability to hold until maturity, and are traded in an active organized market. Available-for-sale investments correspond to instruments that are traded in an active and organized market and that do not meet the criteria to be classified as trading or held to maturity. All other securities that are not traded in active or organized markets and are not classified in the previous three (3) categories, are classified as other investments in debt securities.

Trading securities are recognized initially at cost. The changes in the market value are recognized in the consolidated statement of income - statutory basis as a gain or loss on fair value changes.

Available for sale investments are recognized initially at acquisition cost. The changes in the fair value are recognized in equity as an unrealized gain or loss on available for sale investments.

Held to maturity investments and other investments in debt instruments are recognized at amortized cost.

Premiums or discounts arising on the purchase of held to maturity investments and other debt instruments investments are amortized over the period of the instrument using the effective interest rate.

The allowance for investments is determined following similar criteria to those established for loan portfolio in terms of classification, based on the issuer's creditworthiness and percentages of ratio losses. The financial characteristics of the instruments and their trading on a secondary market, if any, are also considered for financial investments.

Instruments issued or guaranteed by the Dominican Government, the Superintendence of Banks authorized that they are considered risk-free with 0% allowance.

The type of security or financial instrument and its amount, is presented in Note 6.

Excess of provision for investments cannot be released without prior authorization of the Superintendence of Banks.

2.8.2 Investment in shares and allowances

Investments in shares are carried at cost, net of allowance for losses.

Reserves for investments in shares are determined following the same criteria as for major commercial debtors, in accordance with the Regulation for Assets Valuation. (See note 2.5.1).

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

The characteristics, constraints, nominal value, market value and number of investments in shares are presented in note 12.

2.9 Valuation of property, furniture and equipment and the depreciation method used

2.9.1 Basis of recognition

Land and buildings (owned by the Bank) are carried at fair values as determined by independent appraisers as of December 31, 2004. Land and buildings acquired after that date and other furniture and equipment are carried at cost. Depreciation is calculated using a method similar to the declining balances depreciation method.

Depreciation method for property, furniture and equipment was change in 2014 from method similar to declining balances depreciation method to straight line method. (See note 13).

2.9.2 Depreciation

Depreciation percentages are the followings:

<u>Description</u>	Estimated Useful I	Lives in Years
-	<u>2014</u>	<u>2013</u>
Buildings	2.5%	5%
Furniture and equipment	12.5% - 20%	15%-25%
Leasehold improvements	50%	50%

2.10 Assets received in loan settlements

Assets received in loan settlements are carried at the lower cost of:

- a) Value agreed upon payment in kind or the awarded price in a public auction.
- b) Market value at the date assets are received.
- c) Outstanding balance of the loan plus interest and/or accounts receivable which are being cancelled.

The valuation reserve for these assets is determined following the criteria established by the Superintendence of Banks, as described in note 2.5.4.

2.11 Deferred charges

Deferred charges include prepaid income taxes, deferred income taxes and other prepaid expenses.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

Other prepaid expenses are amortized as the prepaid services are received.

2.12 Assets and liabilities in foreign currency

The amounts in the accompanying consolidated financial statements – statutory basis are presented in Dominican pesos (RD\$). Assets and liabilities in other currencies are translated using the exchange rate set by the Central Bank of the Dominican Republic at the date of the consolidated financial statements – statutory basis. Transactions during the year and income and expenses are translated at the exchange rate at the date of the transaction. Resulting gains or losses of the translation of assets and liabilities in foreign currency are recognized under "Income (expense) from net foreign exchange rate" in the accompanying consolidated income statements- statutory basis.

At March 31, 2014 and December 31, 2013, the exchange rates used for the translation of the balances from US dollars to Dominican pesos were RD\$43.0376 and RD\$42.6723, respectively. The exchange rates to translate from other currencies to US dollars are presented in note 3 to the consolidated financial statements - statutory basis.

2.13 Revenue recognition and most significant expenditures

2.13.1 Banks' revenue recognition and expenditures

Financial income and expenses

The Bank recognizes interest income on loans and investments under the accrual method. Loan interest is calculated using the simple interest method on outstanding capital amounts. Interests on loans are no longer recognized and placed on nonaccrual status, when a loan is 90 days past due, except for credit card balances, which are placed on nonaccrual status after 60 days. From these dates forward they are recorded in a memorandum account. Once placed in nonaccrual status the interests are recognized as income only when collected.

With the authorization of the Superintendence of Bank, the Bank recognizes as interest income, commissions on discount of invoices when they are collected.

Interest from investments is recognized based on the outstanding balance of the investment. Premium and discounts from the acquisition of these investments are amortized over the life of the investment as part of the interest paid.

Interest expenses and other expenses are recognized in the accrual basis of accounting, i. e., when incurred. Revenues from the other services rendered by the Bank are recognized when generated.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

Expenses related to returns on deposits are recognized in the consolidated financial statement of income - statutory basis, based on accumulation of simple interest, except those corresponding to savings accounts and financial certificates, in which the capitalized returns are accumulated using the compound interest method.

Costs related to the issuance of subordinated debt

Costs directly related to the issuance of subordinated debt are amortized and deferred, and recognized as operational expense using the straight-line method during the validity of the debt.

<u>Income related to the disposal of other investments in debt instruments</u>

Gains on disposal of other investments in debt instruments, are recognized in the consolidated statements of income – statutory basis, as the difference between the amounts received from the sale and the book value of the instruments when the risks and rewards associated with the investment have been transferred to the buyer.

Other income and other operational expenses

Other operational income is recognized when earned and other operational expenses and other operating expenses when incurred. Commission income and other services resulting from managing accounts, drafts and transfers, warranties, purchase and sale of foreign currencies, credit cards, use of ATMS and retail outlets, third-party collections and others, are recognized on an accumulation basis when services have been provided to the clients.

Other income and expenses

Other income surplus resulting from operations, lease of assets, sales of real estate property and others are recognized when earned and other expenses when generated.

Other income from the recovery of written-off assets and decrease in provision for risky assets are recognized when collected.

2.13.2 Revenue recognition of insurance companies

The most important insurance contracts issued by the Bank's insurance subsidiary are as follows:

(a) Short-term insurance contracts - These are annual, semi-annual or quarterly contracts with renewable options issued by the company and covering personal risks and recognized as income when invoiced.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

(b) General insurance contracts - Premiums on these contracts are earned at the time of their underwriting which coincides with the commencement of the term of the contract. Premiums that have been underwritten before the commencement of the term of the contract are unearned and are not recognized in the consolidated financial statements

In accordance with the terms and conditions agreed with the reinsurers, premiums ceded in reinsurance are recognized at the time of recording the premium income. Cancelled premiums are recognized as a deduction of the income for premiums issued

2.13.3 Revenues from the Administrator of Pension Funds (AFP, in Spanish)

The Administrator of Pension Funds (AFP) receives a management fee and a complementary commission from its affiliates and employer, as well as a fee for optional services offered.

The income from monthly administrative commission is received from Pension Fund T-1 (Contribution) and Pension Fund T-4 (Distribution) and is recognized upon receipt of the resources in the Administrator's account base on 0.5 % of the monthly quotable salary.

The income from the complementary annual commission of the Pension Fund T-I (Contribution), T-4 (Distribution) equals 30% and T-5 (Social Solidarity) equals 15% of the excess of yield portfolio of the weighted average rate of the previous month for all terms of fixed-term certificates of deposits, indefinite certificates of deposit and financial certificates issued by commercial and multiple services banks. Effective November 14, 2013, through joint agreement of the Superintendence of Pensions and the Dominican Association of Pension Fund Administrators, income for complementary fees should be for a maximum of 25% of the average interest rate of commercial banks, as informed daily by the Central Bank of the Dominican Republic. The rate is reported to the AFP by the Superintendence of Pensions according to the information provided by the Central Bank of the Dominican Republic.

Monthly charges from complementary annual commissions are made on the basis of 50% of the previous month, with the exception of the first month of the year in which is charged 100% of the previous month's balance, following the guidelines of Resolution No. 34-03, No. 232-05 and No. 239-05.

2.13.4 Revenues for services to the Health Insurance Administrator (ARS)

The Health Insurance Administrator (ARS) recognizes revenues for services under the accrual method. Health Services Plan are recognized and billed when UNIPAGO (entity in charge of processing the Database of the Dominican Social Security System) sends the affiliation report to the ARS. Complementary plans and voluntary plans are recognized when the coverage becomes effective.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

2.13.5 Revenues from real estate

Revenues from sale of apartments, houses and land are recognized when all the risks and rewards of ownership or property have been transferred, which regularly occurs upon closure of sales contracts and thus receiving a substantial part of the price agreed upon.

Income fees from the sale of properties, interest on investments and other income are accounted for when earned.

Rental income of industrial buildings and electrical substations are recognized on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total lease income over the lease period. All other income is recognized on the accrual basis when the service is rendered.

2.13.6 Revenues from parking building

Revenue collection from parking fees is recognized on the accrual basis of accounting, i.e. when the services have been offered to customers.

2.14 Provisions

The Bank establishes provisions whenever it considers that it has incurred an obligation as a result of a past event, when it is probable that it will have to disburse financial resources to settle these obligations and when a reasonable estimate of the amount involved can be made.

2.15 Income tax

According to its Organic Law, Banco de Reservas de la República Dominicana, Banco de Servicios Múltiples, is exempted from income tax payment; however, the Bank calculates and voluntarely pays income tax following some guidelines of the Tax Code and specific criteria, considering that the beneficiary is also the Dominican Government. In this regard, the Bank recognizes the tax effects of transactions in the year in which they are included in profit or loss, regardless of when they are recognized for tax purposes, including provisions for risky assets and special contributions of the Bank's employees Pension Plan, among others.

Pursuant to paragraph "A" of Article 24 of Law No. 8-90 regarding the establishment of new free zones and the expansion of existing ones, Operadora de Zonas Francas Villa Esperanza S. A. is also exempt from payment of import tax, customs duties, income tax, and other related taxes in force until 2017. The remaining subsidiaries of the Bank are subject to payment of income tax, for which, the tax effects of the transactions are recognized in the year in which they are included in profit or loss, regardless of when they are recognized for tax purposes.

Total expense resulting from income tax payment is recognized in the consolidated statement of income - statutory basis.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

Deferred income tax is not recognized because the Bank's management cannot guarantee that items that originated them may be deductible in the future.

2.16 Financial Instruments

A financial instrument is defined as cash, evidence of a property right or interest in an entity, or a contract that creates an obligation or a right to pay or receive cash or another financial instrument from a second entity in terms potentially favorable to the first entity.

The estimated market values of the financial instruments of the Bank, their book value and the methodology used to estimate them are described below:

Short-term financial instruments

Short-term financial instruments, both assets and liabilities, are carried at cost recognized in the Bank's consolidated balance sheet – statutory basis. This cost is similar to market value because of the relatively short-term period of time between the origination of the instruments and their subsequent realization. This category includes: available funds, acceptances receivable and outstanding, interest receivable and interest payable.

Investment in securities

The fair values of investments in securities and equity are estimated based on cost adjusted for impairment and are determined following specific guidelines issued by the Superintendence of Banks, as there is no active securities market in the Dominican Republic that can provide market values.

Outstanding securities

It is not possible to estimate a market value for outstanding securities as there is no active market for these instruments in the Dominican Republic.

Loan portfolio

The loan portfolio is measured at book value, adjusted for loan loss allowance as established by the regulatory authorities. Loans are segregated by type such as commercial, residential mortgage, consumer and credit cards.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

Interest on financial assets and liabilities

Interest earned on financial assets is recognized under the accrual method using the simple interest method, based on outstanding amounts of principal. Interest expense on financial liabilities is also recognized using the same method.

2.17 Derecognition of financial assets

Financial assets are derecognized when the Bank losses control and or all contractual rights over such assets. This occurs when the rights are sold, expire, or are transferred.

2.18 Impairment of assets

The Bank reviews all long-lived assets and identified intangibles to determine in advance if events or changes in circumstances indicate that the carrying value of these assets will be recovered from operations.

The recoverable amount of an asset maintained and used in operations, is measured by comparing the carrying amount of the assets with the highest discounted expected cash flows to be generated by that asset in the future. If, after making such comparison, it is determined that the assets values have been negatively affected, the amount to be recognized as a loss will be the excess of the carrying amount over the fair value of the asset and said loss is recognized in net income of the year when determined.

2.19 Contingencies

The Bank considers as contingent obligations those operations in which it has assumed credit risks and which, depending on future events, may become direct obligations of the Bank with third parties.

2.20 Accounts receivable

Accounts receivable are measured at amortized cost, net of any impairment loss.

The allowance for doubtful accounts is recognized through a charge to expense account for losses resulting from doubtful accounts. These receivables are charged to earnings when management determines that collectability is doubtful based on installments made, client's payment history and evaluation of collaterals, if they exist.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

2.21 Distribution of dividends

The Bank pays dividends based on the results of their operations in accordance with the decisions of the Board of Directors' meeting. As established by Resolution No. 12-2001 dated December 5, 2001, issued by the Superintendence of Banks of the Dominican Republic, the maximum amount of dividends to be distributed among the shareholders, should not be greater than the amount of accumulated retained earnings. This distribution is also subject to the provisions established by the Bank's Organic Law No. 6133 and its amendments (see note 26).

2.22 Revaluation Surplus

Revaluation surplus is the difference between the value appraised by independent experts and the book value of land and buildings at the time of revaluation, net of the corresponding depreciation.

2.23 Mathematical and technical reserves - life insurance and collective insurance

The insurance subsidiary Seguros Banreservas, S. A. (the Company) determines the mathematical and technical reserves on the basis of net premiums and considers mortality tables and interest used by the Company, and consist of the amount equivalent to the difference between the present value of the Company's obligation towards the insured and the present value of the insured obligations towards the Company, which is determined based on actuarial calculations.

Resolutions 293-09 and 294-09, changed the basis for calculating these provisions, considering the indexed salary which should be determined in accordance with changes in the consumer price index reported by the Central Bank of the Dominican Republic, when the application of this basis results in a lower amount, the original basis of calculation should be maintained. Reserves for outstanding casualty claims regarding disability and survivorship should amount to 45% of the estimated actuarial reserve.

As established in Article 141 of Law No. 146-02 on Insurance and Guarantees of the Dominican Republic, technical reserves for collective life, personal accident and health insurance are calculated on the basis of the following specific percentages:

Collective life, personal accidents and health insurances,	
provided premiums are collected on a monthly basis	5%
Personal accidents when the premium is collected at terms	40%
Survivorship and disability	5%

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

2.24 Reserves for unearned insurance premiums, commissions on unearned reinsurance premiums

As established by Law No. 146-02 of the Superintendence of Insurance, unearned premium reserves, commissions on unearned premiums and commissions earned on assigned reinsurance premiums are determined based on fixed percentages, as follows:

Transportation and freight insurance	15%
Bank guarantees	40%
For other insurances	40%

2.25 Specific reserves

Claims for insurance contracts that are pending settlement or payment at the date of the financial statements are recorded as specific reserves.

2.26 Amortization of non-proportional contracts - catastrophic premiums

Non-proportional (catastrophic) contracts have a term from July 1 to June 30 of the following year. Premiums paid on these contracts are amortized on a straight line basis.

2.27 Incurred but Not Reported claim reserves (IBNR)

This reserve represents the amount of claims that have occurred at the date of the financial statements, but have not been reported to the ARS.

Resolution No. 163-2009 of the Superintendence of Health and Labor Risks, states that the bank should calculate the IBNR reserve based on 10% of the claims incurred during the current period less the claims incurred from the previous year.

2.28 Segment reporting

A business segment is a group of assets and operations that are responsible for providing products or services which are subject to risks and returns that are different from those of other business segments. Geographic segments provide products or services within a particular economic environment that is subject to risk and rewards that are different to other segments in other economic environment.

- (i) Represents loans that are current in principal payments.
- (ii) Represents principal and interest receivable of loans, which being current or past due, their payment terms and conditions have been changed, resulting in a variation of the interest rate and/or maturity of the original loan contract, as well as credits originated in interest capitalization, past due commissions and other charges of the original loan.
- (iii) Corresponds to principal installments and interest receivable that present arrears of 31 to 90 days with respect to the date that principal payment should have been made.
- (iv) Corresponds to total principal and interest receivable that are past due in their principal payments for more than 90 days. For loans that are paid in installments, the total loan amounts are classified as past due loans when the installments are more than 90 days past due. It also includes overdrafts on demand deposits accounts with more than three (3) days unpaid balances.
- (v) Corresponds to principal and interest receivable of loans that are in legal collection process.

(i) Multi-use collateral are real estate assets that are not specific to a certain activity, can be used for a variety of purposes, easy to convert to cash, easy to appraise, easy to foreclose upon, transferrable without excessive costs and of stable value. These collaterals are considered between 50% and 100% of their value for risk coverage depending on the collateral. These collaterals are considered for coverage according to the following detail:

Type of collaterals	Percentage of Admittance
Public sector securities	100%
Securities issued by the same financial institution	100%
Securities from other financial institution and standby guarantee	95%
Real estate	80%
Inventory	90%
Industry of multiple use	70%
Hotels located in developed touristic zones	70%
Hotels located in recently established touristic zones	50%
Free-trade zones of multiple use	60%
Other multi-use collateral	<u>70%</u>

(ii) Specific-use collaterals are real guarantees that due to their nature are considered of unique use and for that reason present characteristics that are difficult to sell due to their specialized origin. These collaterals apply according to the following percentages:

Motor vehicles with less than five (5) years of use and heavy vehicles with insurance 50% Industry of unique use 30% Other specific-use collateral 30%

(iii) This item considers as unsecured loans those that are guaranteed by insurance policies ceded and other guarantees.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

At March 31, 2014 and December 31, 2013 includes RD\$113,979,173 and RD\$87,197,142, of public sector loans, which were included in the Budget of Revenues and Public Expenses Law authorized by the Ministry of Finance and/or specific laws approving these loans.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

As of December 31, 2013, loans to private sector include RD\$3,414 million, equivalent to credit line operations with contractors who are working with the Dominican Government, guaranteed by the Dominican Republic Government, and the Superintendence of Banks authorized the risk "A" classification with a provision of 1%.

As of March 31, 2014 and December 31, 2013, a significant amount of the loan portfolio of the Bank corresponds to loans granted to public sector entities. In December 2012, these loans were authorized by the Superintendence of Banks to be classified with 0% of provision requirement if the borrower is in the "A" risk category.

During 2013, the Bank sold to a foreign financial institution a portion of its participation in loans with the Ministry of Finance which amounted to US\$ 253,233.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

During the three month period ended at March 31, 2014, the Bank conducted a review of the depreciation method for recommendations from external consultants as well as to approach a method accepted by local and international accounting practices.

As a result of this review, the Bank determined to change the depreciation method from method similar to declining balances depreciation method to straight line method. The straight line method will result in a constant charge over the useful life of the asset if the residual value does not change.

The effect of these changes on expenses and expected depreciation, include in operating expenses in current and for the next five (5) years, respectively, is as follows:

Increase (decrease)	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
in depreciation						
expenses	3,3,71	<u>59,497</u>	<u>68,577</u>	<u>36,603</u>	(20,938)	(45,823)

14 Other Assets

Following is a summary of other assets as of March 31, 2014 and December 31, 2013:

		2014	2013
Deferred charges:			
Commissions to insurance agents			
on unearned premiums	RD\$	170,168	175,422
Prepaid insurances		107,153	172,310
Non-deferred proportional reinsurance			
premium ceded (a)		179,772	300,242
Prepaid income tax		369,154	932,226
Credit from taxes on financial assets		-	231,147
Others prepaid payments		240,994	205,732
Interest and prepaid commissions		21,512	23,693
Other deferred charges	_	42,738	77,462
-			
	_	1,131,491	2,118,234
Intangibles assets:			
Other deferred charges (b)		175,932	175,718
Accumulated amortization		<u>(141,509</u>)	(127,863)
		34,423	47,855

- (a) Corresponds to the allowances for assets received in loan settlements.
- (b) This provision is included in the line item of other liabilities in note 20 and the expense for constitution is included in the operating expense item in the accompanying consolidated income statements- statutory basis.
- (c) Represents the amounts of allowance determined by a self-assessment as of March 31, 2014 and December 31, 2013 plus other adjustments made.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

(d) In case that the provisions determined are lower than the provisions made, the Superintendence of Banks of the Dominican Republic does not allow the release of provisions without the prior authorization of the regulatory authorities.

The Superintendence of Banks through Letter No. 0981 dated December 14, 2012, informed the Bank its no objection for loans granted to the public sector classified in the "A" risk category to be treated similar as the issuance of debt securities from the Ministry of Finance and the Central Bank with a provision requirement of 0%.

As of March 31, 2014 and December 31, 2013, the Bank evaluated the portfolio of major commercial debtors of the public sector, whether the term public loan is understood as defined and established by Law 6-06 on Public Loans, or for the remaining of the loan portfolio included in the public sector following the guidelines of the Instructive for Loan Evaluation, Investments and Contingent Operations of the Public Sector and related documents. Loans payable to some important entities of the Dominican electricity sector were classified as risk rated "A" and were provisioned at 1%, as established through letter ADM/0089/12 issued by the Superintendence of Banks of the Dominican Republic, dated February 8th 2012. In the same manner, by means of circular ADM/0093/14 dated February 26, 2014, loans to the Dominican road sector, are classified as risk "A" with a provision requirement of 0%.

	<u>12,913,003</u>	_			

a) Corresponds to bonds issued by the Bank on February 1st, 2013, for a nominal value of US\$300,000. This debt generates a nominal interest of 7% annually and has an original maturity of 10 years until February 1st, 2023. This debt issuance was carried out in the United States of America "USA" to qualified institutional buyers as defined in Rule 144A under *the U.S. Securities Act of 1933* and other countries outside the United States of America "USA" according to "*Regulation S:*."

Additionally, the bonds have the following characteristics:

- Interests are payable semi-annually on February and August 1st, of each year.
- The bonds will not be redeemed prior to their maturity date.
- The bonds are unsecured.
- In the event of bankruptcy, liquidation or dissolution of the Bank under Dominican laws, the payment of the bonds shall be subject to all existing and future obligations denominated as "Senior Obligations," which include all other liabilities of the Bank.
- The subordinated debt may be used to compute as part of Tier II capital for the purpose of determining the regulatory capital of the Bank.
- b) Relates to costs incurred in issuing bonds, which are deferred and amortized using the straight-line method over the life of the bonds.
- c) Relates to discounts granted in the issuance of bonds, which are amortized using the straight-line method over the life of the bonds.

Notes to the Consolidated Financial Statements - Statutory Basis

The Bank's equity contribution is as follows:

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

- a) Initial of RD\$50,000,000 according to Law No. 6133 of December 17, 1962, which amended Article 4 of the Organic Law of the Bank.
- b) RD \$200,000 by delivering state-certified bonds issued by the National Treasury in 1998.
- c) In accordance to Law No. 99-05 of April 5, 2001, which amended Article 4 of the Organic Law of the Bank, the Dominican Republic Government issued RD\$1,750,000 bonds in favor of the Bank
- d) In accordance with Law No. 121-05 of April 7, 2005, the Dominican Republic Government issued RD\$1,500,000 bonds in favor of the Bank.

The Bank's net profit will be used in the following manner:

- 50% For amortization of not less than 5% of Certified bonds issued by the National Treasurer on behalf of the Dominican Republic Government, plus interest. The resulting surplus will cover the debt of the Dominican Government and its agencies, as approved by the Board of Directors, upon previous notice to the Executive Branch.
- 35% To transfer to the reserves equity accounts.
- 15% To cover debts of the Dominican Republic Government and its agencies with the Bank.

The Board of Directors, in its Twenty-first Resolution of the Ordinary Session of June 13, 2013, approved the release to the Dominican Republic State the amount of RD\$3,178,033, corresponding to retained earnings of the profits obtained by the Bank during fiscal years 2010, 2011 and 2012. In addition, that same resolution approved the payment of dividends to the Dominican State through the transfer of a land lot of 1,400,000 square meters that was part of the assets received in settlement of loan which market value was RD\$450,000,000.

According to the First Ordinary Resolution dated January 10, 2013, the Board of Directors approved the distribution of earnings for the year 2012 in the amount of RD\$2,221,574,254, in the following manner:

- i) RD\$777,551 transferred to equity reserve.
- ii) RD\$75,000 for the amortization of National Treasury vouchers.
- iii) RD\$5,250 to offset interests of the National Treasury vouchers.
- iv) RD\$333,236 to offset debts of the Dominican Republic State.
- v) RD\$1,030,537 to be delivered to the Dominican Republic State.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

According to the Eighteenth Ordinary Resolution dated January 14, 2014, the Board of Directors approved the distribution of earnings for the year 2013 and previous years retained earnings in the amount of RD\$6,676,055,680, in the following manner:

- vi) RD\$1,766,341 transferred to equity reserve.
- vii) RD\$2,000,000 issue of common stock.
- viii) RD\$75,000 for the amortization of National Treasury vouchers.
- ix) RD\$4,500 to offset interests of the National Treasury vouchers.
- x) RD\$757,003 to offset debts of the Dominican Republic State.
- xi) RD\$1,300,000 to be delivered to the Dominican Republic State.
- xii) RD\$773,211 sale of foreclosed assets to the Dominican Republic State.

Other equity reserves

In accordance with the Bank's Organic Law, the Bank must segregate 35% of its yearly net profit to equity reserves. As of December 31, 2013 the Bank segregated equity reserve in the amount of RD\$1,766,341.

Through Circular SB/0682 dated December 31, 2010, the Superintendence of Banks issued a no-objection to the application within the fiscal year of the segregation of 35% of net income as other equity reserves, provided they are in compliance to the guidelines for distribution of profits as set forth by the supervisory body.

Revaluation surplus

In order to carry out its operation, the Bank revalued its land and buildings to their estimated market valued determined by independent appraisers in the year 2004, as allowed by the Prudential Rules of Capital Adequacy. The value of the revaluation was RD\$915,737 and is presented net of the accumulated depreciation in the consolidated balance sheet – statutory basis. The Bank classified this amount as secondary capital, with the prior authorization from the Superintendence of Banks of the Dominican Republic.

28 Commitments and contingencies

In the normal course of business, the Bank enters into different commitments and incurs certain contingent liabilities that do not appear in the enclosed financial statements. The most important balances of these commitments and contingent liabilities include:

		<u>2014</u>	<u>2013</u>
Collaterals granted:	DD¢	1 202 666	1 260 100
Endorsements Other collaterals granted	RD\$	1,393,666 208,375	1,369,199 196,638
Non-negociable letters of		,	,
credit issued		243,734	177,817
Credit lines of automatic use	_	5,483,386	4,824,869
	RD \$ _	7,329,161	6,568,523

At March 31, 2014 and December 31, 2013, the Bank has reserves for possible losses from these operations in the amounts of RD\$91,029 y RD\$82,043, respectively.

At March 31, 2014 and December 31, 2013, the Insurance subsidiary and the Health Insurance Administrator (ARS) had contingent liabilities for retained risk estimated as follows:

	RD\$	602,092,468	549,480,798
General risk Individual life insurance Collective life insurance	RD\$	566,011,000 3,317,671 32,763,797	523,228,145 2,946,964 23,305,689
		<u>2014</u>	<u>2013</u>

According to the practices of the insurance company, most risks retained are reinsured under catastrophic coverage and excess loss.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

(a) Leasing of offices, buildings and automatic teller machines (ATM)

The bank has subscribed lease contracts of buildings where some of its administrative offices, branches, business centers and ATM's are located. For the periods of three month ended March 31, 2014 and 2013, expenses for this concept amounted to approximately RD\$83,330 and RD\$67,511, respectively, which are registered in other operating expenses in the accompanying consolidated income statements-statutory basis.

(b) Superintendence of Bank fees

The Monetary Board of the Dominican Republic requires financial entities to make a contribution in order to cover the inspection services that are conducted by the Superintendence of Banks of the Dominican Republic. The expense for this concept for the three month periods ended March 31, 2014 and 2013 was of approximately RD\$149,330 and RD\$103,753, respectively and is registered in other operating expenses in the accompanying consolidated income statements-statutory basis.

(c) Contingent fund

Article 64 of the Monetary and Financial Law No. 183-02 dated November 21, 2002 and the Regulation for the Operation of the Contingency Fund, assumed through the First Resolution issued by the Monetary Board on November 6, 2003, authorizes the Central Bank of the Dominican Republic to collect quarterly contributions from the entities of financial intermediation for this fund.

The contribution shall be 0.25% of quarterly total assets minus the quarterly supervision quota charged by the Superintendence of Banks of the Dominican Republic. This contribution shall not exceed 1% of total deposits from the public.

Expenses for this concept for the three month periods ended March 31, 2014 and 2013, was of approximately RD\$47,158 and RD\$44,000, respectively, and are registered in other operating expenses in the accompanying consolidated income statements-statutory basis.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

(d) Fund for banking consolidation

For the implementation of the Exceptional Program for Risk Prevention of the Entities of Financial Intermediation according to Law 92-04, the Central Bank of the Dominican Republic created the Fund for Banking Consolidation (FBC) with the main purpose of protecting the depositors and avoiding systematic risk. The FBC was created with mandatory contributions from the financial entities and other sources as established by the above mentioned law. Such contributions are calculated considering customer deposits with minimum annual rate of 0.17% to be paid quarterly.

Expenses for this concept for the three month periods ended March 31, 2014 and 2013, was of approximately RD\$104,290 and RD\$80,750, respectively and are registered in the line item other operating expenses in the accompanying income non-consolidated statements-statutory basis.

(e) Credit card licenses

MasterCard credit cards

The Bank maintains a contract with a foreign company for the non-exclusive use of MasterCard brand for charge card services, credit or debit card. The Bank does not pay fees for the right of use of MasterCard. The Bank has the commitment to open a line of credit for no less than US\$5,000 for each MasterCard Gold card issued. The license is perpetual; subject to the termination provisions set forth-in the contract.

Visa credit cards

The Bank has a contract with a foreign company for the non-exclusive use of Visa and Electron charge card services, credit or debit card. The Bank does not pay fees for the rights of use of Visa. The duration of the license is perpetual, subject to termination as stated in the contract.

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

(f) Lawsuits

As of March 31, 2014 and December 31, 2013, there are several lawsuits and demands originated in the normal course of the Banks operations. The Bank considers jointly with its legal advisors that the resolution of these claims will not result in an adverse material effect. As of March 31, 2014 and December 31, 2013, the amount reserved to face these demands is of RD\$105,660 and RD\$104,433 respectively, and is registered in other liabilities in the accompanying consolidated balance sheets - statutory basis.

In the normal course of operations, the subsidiary company Banreservas Seguros, S. A. has various commitments and contingent liabilities resulting from claims, lawsuits and other legal proceedings seeking damages covered by insurance policies. The Company has established reserves that it considers necessary to cover these claims and demands based on its experience in this field.

(g) Claims for loss

The insurance subsidiary Banreservas, S. A. has received insurance claims for loss that arise from normal course of business, which have occurred at December 31, 2012. The Bank operational processing of these claims had not been completed at the time of preparation of the financial statements. The Bank's management expects that the end result of this process will not be material in relation to the financial position of the Bank and that the main risk is assumed by the reinsurers.

(h) Taxes on financial assets

Article 12 of Law No. 139-11 dated June 22, 2011, established for a period of two (2) years after the promulgation of the Law, an annual tax of 1% on the average productive financial assets net of some exempt amounts; it also exempts the financial institutions from the obligation of liquidating and paying the tax on total assets as established by Law 557-05. Article 40 of Law 253-12 dated November 9, 2012, extended until December 31, 2013 the current period of the Tax on the Net Productive Financial Assets. At December 31, 2013, recorded expenses for this concept for the amounts of approximately RD\$370,273, are shown in the line item of other operational expenses in the accompanying consolidated income statements - statutory basis.

(In thousands of Dominican Pesos)

Position:				
15 days adjusted	1,407,960	(60,323)	4,183,132	233,255
30 days adjusted	1,259,805	849,745	546,168	1,008,917
60 days adjusted	(3,893,051)	652,017	(6,304,776)	823,451
90 days adjusted	(4,575,507)	454,882	(8,864,917)	696,228
Global (months)	(0.64)	<u>(49.95</u>)	<u>(1.04</u>)	(56.78)

The regulations on liquidity risk establish that the maturities of liabilities for the period of 30 days should be covered by assets maturing in at least 80% of that amount for both currencies. At March 31, 2014 and December 31, 2013, the Bank had coverage in local currency of 104.37 % and 101.98 % respectively, and in foreign currency 292.24% and 377.81%, respectively. For a period of 90 days it is required 70% of maturity of the adjusted liabilities. At March 31, 2014 and December 31, 2013, this ratio showed in local currency 90.85% and 81.37%, respectively, and 148.25% and 188.94%, respectively, in foreign currency. The consolidated global position of assets and liabilities in local and foreign currency at March 31, 2014 and december 31, 2013, mature in 0.64 and 1.04 and 49.95 and 56.78 months, respectively, before the liabilities.

36 Fair value of the financial instrument

A summary of the fair value of financial instruments at March 31, 2014 and December 31, 2013 is as follows:

		At March 31, 2014		At December 31, 2013

(N/A): Not available.

- (a) The Bank has not made an analysis of fair values of its loan portfolio, customer deposits, outstanding securities and borrowed funds, whose market values might be affected by changes in interest rates.
- (b) There is not an active stock market in the Dominican Republic where fair value of these investments in shares can be obtained.

37 Transactions with related parties

The First Resolution of the Monetary Board dated March 18, 2004 approved the Regulation regarding Credit Limits to Related Parties, which established the criteria to determine who is a related party of financial institutions.

Operations and significant balances with related parties in accordance with the criteria established by the Regulation regarding Credit Limits to Related Parties as of March 31, 2014 and December 31,2013 are as follows:

Notes to the Consolidated Financial Statements - Statutory Basis

(In thousands of Dominican Pesos)

	At March 31, 2014				
	Current	Past due			
	<u>Loans</u>	<u>Loans</u>	<u>Total</u>	<u>Collaterals</u>	
Related through ownership Related through	113,979,173	-	113,979,173	Unsecured	
management	7,236,224	62,251	7,298,475	4,407,501	
	At December 31, 2013				
	Current	Past due			
	<u>Loans</u>	<u>Loans</u>	<u>Total</u>	<u>Collaterals</u>	
Related through ownership Related through	87,203,099	-	87,203,099	Unsecured	
management	6,354,358	64,039	6,418,397	2,182,319	

The loans related to the ownership correspond to loans to the Dominican Republic Government and its agencies, which are excluded when determining the technical relations of the loan portfolio.

As of March 31, 2014 and December 31, 2013, loans related to the management of the Bank includes RD\$7,298 and RD\$6,418 million, respectively, which were granted to employees at rates more favorable than those to unrelated parties in accordance with the policy for personnel incentives. Similarly, deposits with related parties maintain interest rates at different conditions from those of unrelated parties.

The most significant balances and transactions with related parties through ownership for the years ended at March 31, 2014 and December 31, 2013 include:

38 Pension fund

The Bank makes contributions to the following pension plans:

a) A pension plan with defined benefits and other pension plan for the employees that are not covered by Social Security Law No. 87-01 dated May 9, 2001, established by the Social Security System of the Dominican Republic. According to the regulations of the Pension Plan, approved by the Bank's Board of Directors, the Bank's contributions to this plan amounts to 12.5% of the monthly salaries paid to officers and employees, plus 2.5% of the Bank's gross profits. Additionally, the Bank may make extraordinary contributions based on the results of actuarial studies. A summary of the financial information on the plan (unaudited) is as follows:

Net position of the plan	RD\$	<u>(556,699</u>)	<u>(556,699</u>)
Present value of obligations for past services Net assets of the plan	RD\$	(7,748,215) <u>7,191,516</u>	(7,748,215) <u>7,191,516</u>
		<u>2014</u>	<u>2013</u>

The expenses recognized during at periods of three month ended at March 31 2014 and 2013 mounted to RD\$130,665 and RD\$88,280, respectively, including extraordinary contributions in the amount of RD\$60,582 in 2013 and 2012, respectively.

The Superintendence of Banks through Circular Letter SB ADM/0681/10 of December 31, 2010, did not object that the Bank recognizes from 2011, an extraordinary annual payment of RD\$242,3 million for a period of nine (9) years, to cover the actuarial deficit determined in accordance to the actuarial study carried out in 2007. For such effect, the Bank was required to submit to the SIB the Minutes of the Board of Directors that approved the transaction, a study with its recommendations concerning the financial position and viability over the next nine (9) years and the balance of the actuarial deficit included in the plan dated December 31, 2010. This information was provided to the Superintendence of Banks through letter ADM-1384-11 of March 14, 2011.

b) The Dominican Social Security System, created by Law No. 87-01 enacted on May 9, 2001, consist of a Contributive Regime that covers public and private employees and employers, funded by the latter, including the Dominican government as an employer. According to the Social Security System of the Dominican Republic all employees and employers must be affiliated to the Administradoras de Fondos de Pensiones (AFP) and Administradora de Riesgos de Salud (ARS). The officers and employees of the Bank are affiliated to several AFPs, being mainly affiliated to the Administradora de Fondos de Pensiones Reservas, S. A.

40 Other disclosures

40.1 Implementation of future standards

According to the Second Monetary Board Resolution dated March 21, 2013, minor debtors whose loans were granted prior to May 31, 2013 and whose debts were consolidated in the domestic financial system are to be converted to major debtors, and should be evaluated on their payment ability rather than on arrears or payment history basis. The effect on the required provisions resulting from this situation must be recognized in the first assessment made by the Bank in 2014.

Notes to the Consolidated Financial Statements - Statutory Basis

41 Footnote disclosure required by the Superintendence of Banks

Resolution No. 13-1994 of the Superintendence of Banks of the Dominican Republic and its amendments, sets the minimum disclosures that the consolidated financial statements of financial institutions should include. As of December 31, 2013 the following notes are not included as they are not applicable:

- Earnings per share.
- Other disclosures
- Significant discontinued operations.
- Change in share ownership.
- Regular reclassification of significant liabilities.
- Gain or loss on sale of fixed assets or other assets in subsidiaries, branches or offices abroad
- Losses caused by disasters.
- Effects of change in market value over the book value of investments in securities
- Events occurring after the close of the year.
